## DETAILED ACTION

### ***Response to Arguments***

1. Applicant's arguments filed January 12, 2004 have been fully considered but they are not persuasive. Regarding claims 21 and 31, the second sealing surface (3) is on the block, since it is secured to the block.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 21and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by Korff et al. (DE04103685). Korff et al. discloses a process for attaching an oil sump to an engine block of a combustion engine, a seal being made by a curable composition (4)between a first sealing surface on the oil sump (2) and a second sealing surface (3) on the engine block, to which the curable composition is applied to one or both sealing surfaces, wherein when cured the curable composition demonstrates adhesion sufficient to secure the oil sump to the engine block, threaded bolts are not used as fastening elements and the oil sump is fixed to the engine block at least during the curing of the curable composition.

***Allowable Subject Matter***

2. Claims 22-30 and 32-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claim 39 is allowed.

***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
